2013 Preventive Care Measure Group Patient Visit Form

Please complete the form below for 20 or more unique patients meeting patient sample criteria for the measure group for the current reporting year. A majority (11 or more) patients must be Medicare Part B Fee-For-Service (FFS) beneficiaries. Measures groups containing a measure with a 0% performance rate (100% for measures where a lower rate indicates better performance) will not be counted as satisfactorily reporting the measures group (For more details and exceptions, see the PQRS measure specification at www.cms.gov/pqrs).

1. **Patient ID**
   Use the Patient ID that is automatically assigned, or enter an identifier that is meaningful to your practice. Keep a record of this identifier in case you need to make edits.

2. **Patient Visit Date**
   The visit date you are reporting on must occur within the 2013 Reporting Period. If this patient visit is between 4/1/2013 and 9/30/2013 skip question 9.

3. **Patient Age**
   The patient must be 50 years of age or older to qualify for the Preventive Care Measure Group.

4. **Please choose the applicable E & M code for this encounter**
   If “Not listed,” the encounter is not eligible for the Preventive Care Measure Group.
   - [ ] 99201
   - [ ] 99202
   - [ ] 99203
   - [ ] 99204
   - [ ] 99205
   - [ ] 99212
   - [ ] 99213
   - [ ] 99214
   - [ ] 99215
   - [ ] Not Listed

5. **Is the patient a Medicare Part B Fee-For-Service (FFS) beneficiary (includes Railroad Retirement Board and Medicare Secondary Payer; does not include Medicare Advantage beneficiaries)?**
   See Medicare Part B Requirements section below.
   - [ ] YES
   - [ ] NO

6. **Patient Gender**
   If “Male” and age is 50-64, skip questions 7-8, and 10-11.
   If “Male” and age 65-75, skip questions 7-8 and 11.
   If “Male” and age is 76+, skip questions 7-8, and 11-12.
   If “Female” and age is 50-64, skip questions 7-8 and 10.
   If “Female” and age is 65-69, answer all questions.
   If “Female” and age is 70-75, skip question 11.
   If “Female” and age is 76+, skip questions 11-12.
   - [ ] Female
   - [ ] Male

7. **Did the patient have central DXA measurement ordered or results documented at least once since age 60, or pharmacologic therapy (other than minerals/vitamins) for osteoporosis prescribed within the last 12 months?**
   See definition section below: Pharmacologic Therapy and Prescribed.
   - [ ] Yes (G8399)
   - [ ] No, it is documented that the patient is not an eligible candidate for screening or therapy (G8401)
   - [ ] No, reason not given (G8400)
